GitHub: <https://github.com/satyamkr7654> Mobile: +91-7654392485

SKILLS

Languages: C, C++, Java, JavaScript, Php, HTML5, CSS3

Frameworks: React, Node.js

Tools/Version control: Git, GitHub, VS Code, IntelliJ IDEA

Core: Data structure and algorithm, OOP

Soft Skills: Problem-Solving, Leadership, Adaptability

PROJECTS

Disaster Management System | GitHub

Apr 2025 - May 2025

- Engineered a full-stack Disaster Management System using HTML, CSS, PHP, and MySQL that provided real-time alerts to 100+ simulated users.
- Integrated user location tracking, centralized helpline and additional core features into a unified platform.
- Secured sensitive user information in a relational database, ensuring 100% data integrity during testing.
- Tech used - HTML, CSS, PHP, MySQL**

Railway Management System | GitHub

Aug 2025 - Sep 2025

- Architected a Railway Management System in Java by leveraging Object-Oriented Programming principles to create a scalable and modular codebase.
- Implemented core booking logic using Linked Lists and Priority Queues, efficiently managing seat allocation for 1,000+ simulated passengers and a scalable waiting list.
- Optimized data handling operations, resulting in approximately 30% faster booking confirmation speed compared to a baseline array-based system.
- Tech used - Java, DSA**

Virtual Study Room Platform | GitHub

Nov 2025 - Dec 2025

- Developed a full-stack virtual study room platform supporting 100+ users, 10+ study rooms, and real-time collaboration features.
- Implemented real-time chat, collaborative notes, file sharing, and video conferencing using Socket.io and WebRTC.
- Built secure authentication and REST APIs with Node.js and Express, and designed a fully responsive UI for all device sizes.
- Tech used - React, Node.js, Express, MongoDB, Socket.io, WebRTC**

TRAINING

Summer Training - Data Structures & Algorithms with java | Certificate

Aug 2025 - Sep 2025

- Developed a Railway Management System using Java, OOP, and DSA concepts during summer training, featuring ticket booking, seat availability, and waiting list management using priority queues and linked lists.

CERTIFICATES

- Programming in C++ and java by lamNeo and Udemy | Certificate (Aug 2024 - Dec 2025)
- Data Structure & Algorithm using Java Programming by lamNeo | Certificate (Jan 2025 - May 2025)

EDUCATION

Lovely professional University

Aug 2024 - Present

Bachelor of Technology - Computer Science and Engineering CGPA: 6.57

Government Polytechnic College Barauni

Apr 2020 - Oct 2023

Diploma CGPA: 8.20

St. paul's English School

Mar 2019 - Feb 2020

Matriculation Percentage: 81.6
